

4.2 TOWFLEX TF2 - 4.000KG / 8.800LBS

scan for video

The TowFLEX TF2 is basically of the same construction as the TF1 but has a more powerful motor and battery pack - the functions are the same. Switching between different aircraft is no issue and will just need a few seconds - no tools required! The universal adapter will be opened and closed by a bowden cable which is positioned ergonomically on the handle. So no bending or bowing is needed to dock the TF1 onto the airplanes front wheel. The battery pack can be removed by just lifting it up and be recharged wherever you want. The little but powerful aircraft tug can also be used as GPU (not designed to start up engines).

ALREADY INCLUDED:

- 500W gear motor
- 1 pair wheel adapters (fitting your aircraft)
- speed control on the handle
- portable battery pack (24V 33Ah)
- battery charger
- LED front light

DIMENSIONS:

520 x 1700 x 700mm / 20,47" x 66,93" x 27,56"

WEIGHT:

70kg / 154lbs

AVAILABLE ADAPTER FOR:

- Aquila A210
- Bölkow BO 209
- Cessna C150/ C152/ C172 / C182/ C206/ C208 Caravan/ C350/ C400
- Cirrus SR20/SR22
- Diamond DA20 Katana
- Eurostar EV-97
- Grumman Tiger AG-5B
- Mooney M20
- Navion R4
- Piper PA28 Archer/ PA60 Aero Star
